Faculty: Premalatha M

Title: QUIZ A THON

V R LENIN VASAN – 20BCE1892

Abstract

QUIZ A THON allows you to participate in quizzes available in the website designed and later in which you can see your individual score of whatever quiz you have participated and also you can see the ranking of you and your friends who have also taken part in the quiz. When you attend the quiz the marking scheme is +3 and -1 for correct answer and wrong answer respectively. Later if you feel any question seems to be wrong, you can take the screenshot of that question and upload that in the file upload section.

Whereas, the admin can view all the details of the users who have registered in this website and can also view whatever quizzes the user has participated and also can view the history of the users and the complete rankings of all the users.

Introduction

[Brief explanation about the project]

1. Introduction:

The main aim of this project is to develop a competitive environment where the users can explore their knowledge on various subjects through attending quizzes individually or with friends.

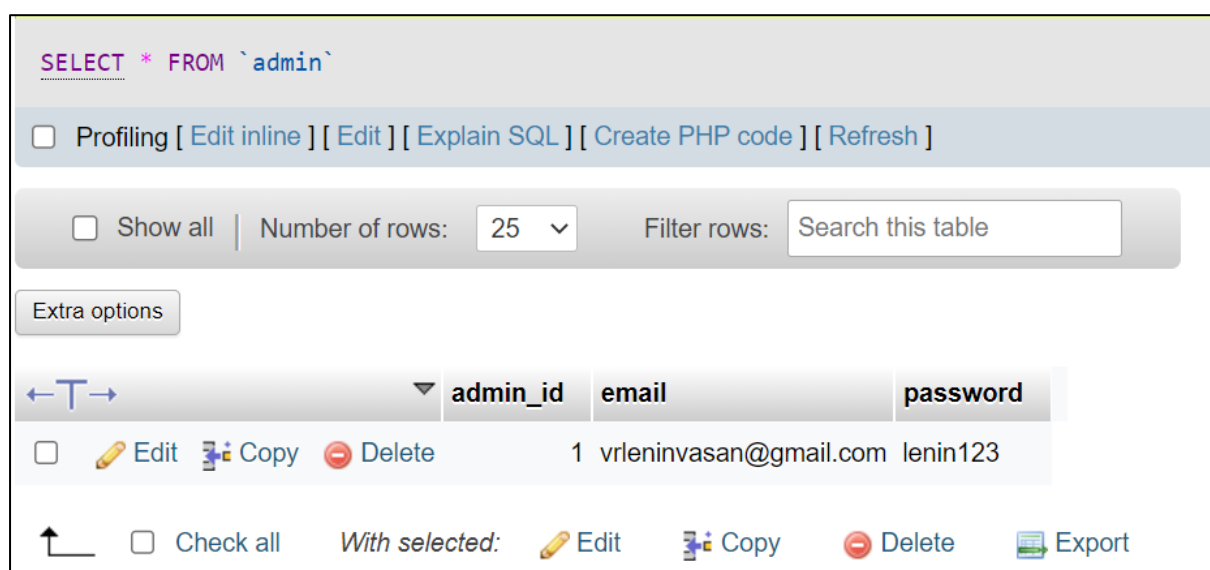

2. Data Set Description:

1. Admin database

It contains - 1 row and 3 columns

The details used in this database are:

- i. Admin id
- ii. Admin mail id
- iii. Admin password

The screenshot displays a database management tool interface. At the top, a SQL query is entered: `SELECT * FROM `admin``. Below the query bar, there are several interactive options: ☐ Profiling, [\[Edit inline \]](#), [\[Edit \]](#), [\[Explain SQL \]](#), [\[Create PHP code \]](#), and [\[Refresh \]](#). A control bar shows ☐ Show all, Number of rows: 25 (with a dropdown arrow), and Filter rows: Search this table. An 'Extra options' button is located below the control bar. The table header row contains a sort icon (left arrow, T, right arrow), a dropdown arrow, and three columns: `admin_id`, `email`, and `password`. The first data row is: ☐ [Edit](#) [Copy](#) [Delete](#) | 1 | `vrleninvasan@gmail.com` | `lenin123`. At the bottom, there is an 'Up' arrow icon, ☐ Check all, and a 'With selected:' section containing [Edit](#), [Copy](#), [Delete](#), and [Export](#) buttons.

	<code>admin_id</code>	<code>email</code>	<code>password</code>
<input type="checkbox"/> Edit Copy Delete	1	<code>vrleninvasan@gmail.com</code>	<code>lenin123</code>

2. Answer database

It contains - 22 rows and 2 columns

The details used in this database are:

- i. Questions id
- ii. Answers id

3. History database

It contains - 3 rows and 7 columns

The details used in this database are:

- i. Mail id
- ii. Unique id
- iii. Score of each person's quiz
- iv. Level
- v. No. of right answers
- vi. No. of wrong answers
- vii. Date of the quiz

✓ Showing rows 0 - 2 (3 total, Query took 0.0008 seconds.)

```
SELECT * FROM `history`

Implementation

[Explain the logic behind the working model]

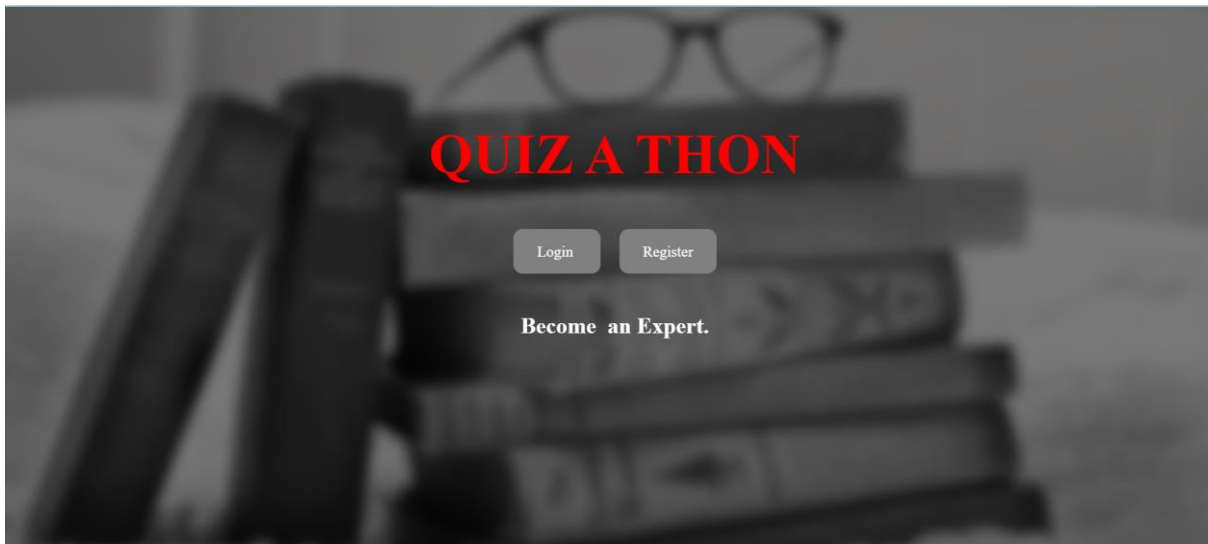

4. System Requirements: [Specify the hardware and software requirements]

Software Requirements:

- i. Frontend: HTML, CSS and JavaScript.
- ii. Backend: PHP and MYSQL.
- iii. Server: XAMPP server.

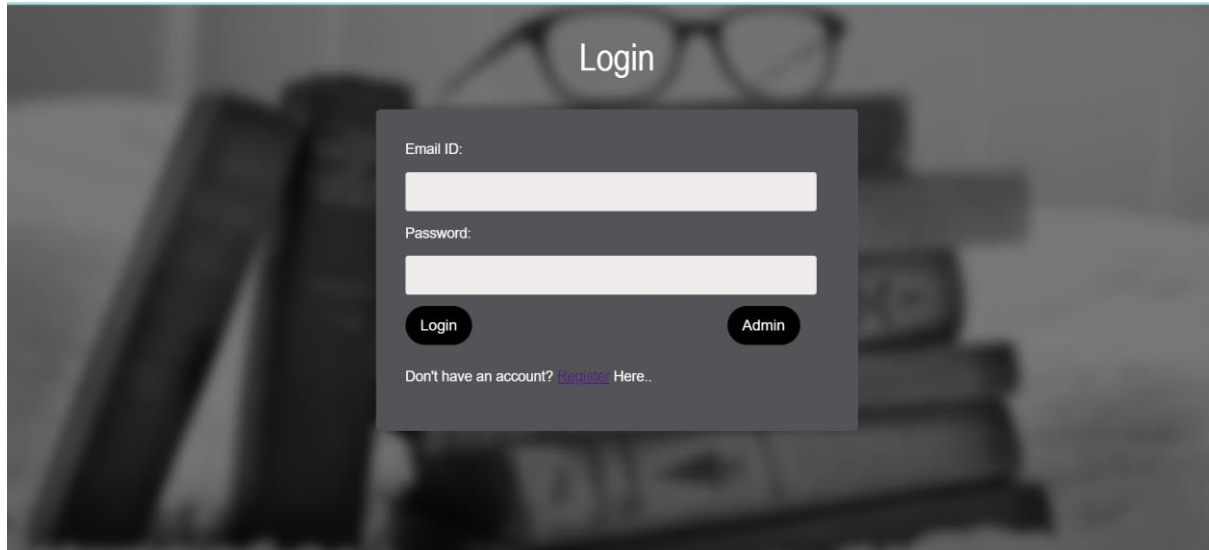

5. Implementation

QUIZ Front Page

- LOGIN MODULE: This is where the user can login using their account.
 1. The user can enter their username and password to login.
 2. If the user is new, they can create their new account.

User login

The image shows a login form titled "Login" centered at the top. Below the title is a dark gray rectangular box containing the form fields. Inside the box, there are two input fields: "Email ID:" and "Password:". Below these fields are two buttons: "Login" and "Admin". At the bottom of the box, there is a link that says "Don't have an account? Register Here..". The background of the entire page is a blurred image of a stack of books and a pair of glasses.

Login

Login

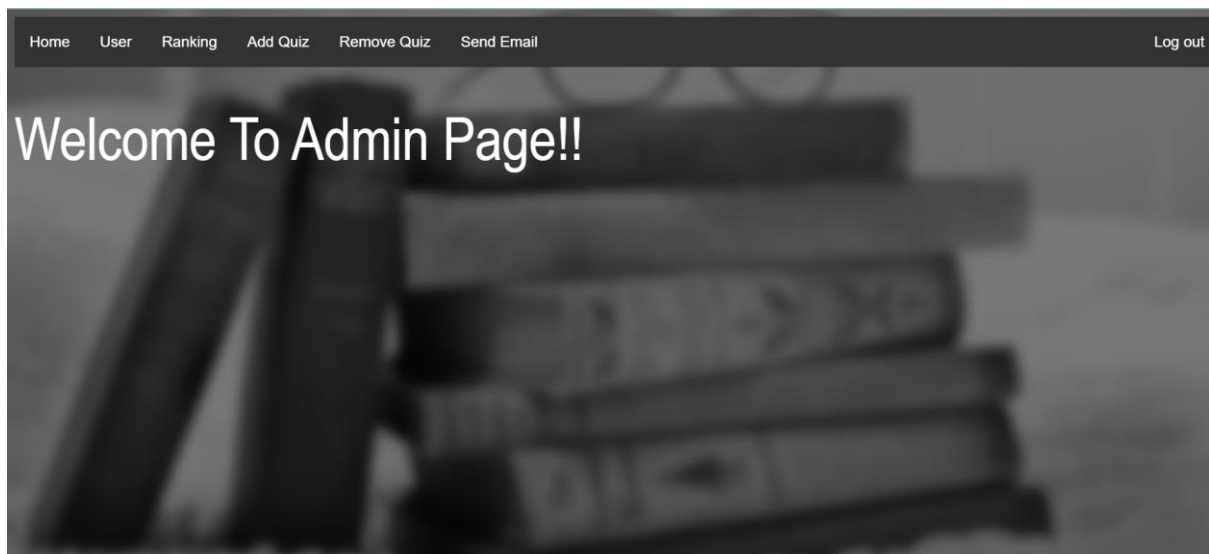

- **MY PROFILE MODULE:** The main aim of this module is to update and display the details of the user.
 1. The user can update their name, avatar and other details.
 2. The user can modify the theme of the webpage.
 3. Admin will be able to delete the profile of the user.

User home page

The image shows a user home page. At the top, there is a dark gray navigation bar with links: "Home", "History", "Ranking", "Upload", and "Log out". Below the navigation bar, there is a table with a dark gray background and white text. The table has six columns: "S.N.", "Topic", "Total question", "Marks", "Action", and "Difficulty". There are two rows of data. The first row has "1" in the S.N. column, "Ip Networking" in the Topic column, "10" in the Total question column, "30" in the Marks column, and a green "Start" button in the Action column. The second row has "2" in the S.N. column, "Php & Mysqli" in the Topic column, "10" in the Total question column, "30" in the Marks column, and a green "Start" button in the Action column. The "Difficulty" column is empty for both rows.

S.N.	Topic	Total question	Marks	Action	Difficulty
1	Ip Networking	10	30	Start	
2	Php & Mysqli	10	30	Start	

Admin Home page

- **ATTEND QUIZ MODULE:** This module allows the user to attend the quiz type selected in the previous module. The level of difficulty of the quiz will increase as the user proceeds.
 1. The level of difficulties are Beginners, Intermediate and Advanced.
 2. In individual mode, the user will select the number of questions and the time limit to complete the quiz.
 3. In multiplayer mode, the system will generate a random code and the user can join the quiz room by entering the code.
 4. In personalized mode, the user can create their own questions and share the link with other users.

S.N.	Topic	Total question	Marks	Action	Difficulty
1	Ip Networking	10	30	Start	
2	Php & Mysql	10	30	Start	

- **THE QUIZ PLATFORM:** This module allows the user to take up the quiz.
 1. The questions are displayed with options and the user can select one among them.
 2. The timer is set when the quiz starts
 3. In multiplayer mode, the teammates can chat with each other.
 4. Once after the quiz is completed, the user can submit to view the results.

- **RESULTS MODULE:** This module displays the final result after the quiz is over
 1. The user can view their marks after the quiz is completed.
 2. In multiplayer mode, the winning team will be displayed along with the marks.

History module

[Home](#)

Rank	Name	Email	Score
1	Sanjil	sanjil.kc2020@vitstudent.ac.in	-6
2	Lenin Vasan	leninvasan.vr2020@vitstudent.ac.in	-12

- EMAIL MODULE: This module sends the results of the quiz to the email address of the user.
 1. A link will be created automatically after the results page.
 2. The user will be directed a to email page where he can share the results to their email.

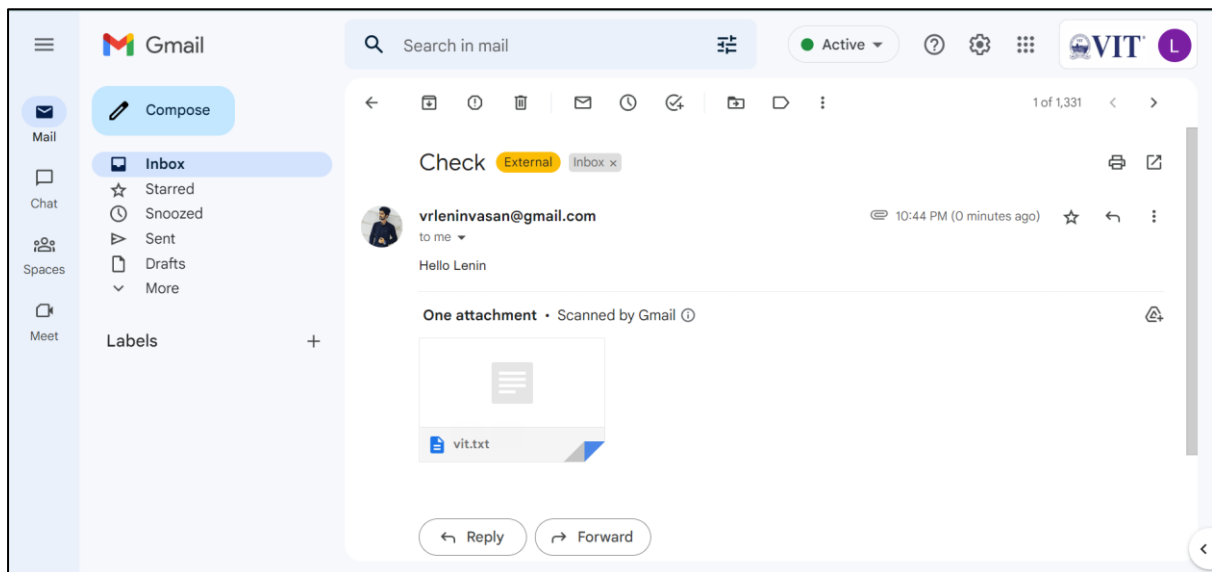

Send email module

The screenshot shows a web application interface with a dark header bar containing navigation links: Home, User, Ranking, Add Quiz, Remove Quiz, Send Email, and Log out. A modal form titled 'Email' is displayed in the center. The form contains the following fields: 'Email' with the value 'leninvasan.vr2020@vitstudent.ac.in', 'Subject' with the value 'Check', and 'Message' with the value 'Hello Lenin'. Below these fields is a file upload section with a 'Choose Files' button and a file named 'vit.txt'. A 'Send' button is located at the bottom of the modal.

The email received to User from Admin

Results and Discussion

6. Results and Discussion

QUIZ A THON is a user-friendly website where users can register and take part in quizzes for preparing for competitive fields. People would love to use this website in leisure times and for recreational activities since any kind of quizzes can be added.

QUIZ A THON will be a better website for people to develop their knowledge in a short period of time.

7. Conclusion

QUIZ A THON is a fully functional website with all the modules working and with a good database in background. It also has facilities for the user to interact with the admin so that immediately the admin can resolve the issue.
